- *Some events may have material impact qualitatively instead of quantitatively.*
- *Some events may not be material at present but may have material impact in the future.*

The risk factors are as envisaged by the management. Wherever possible, the financial impact of the risk factors has been quantified.

Some of our Group Entities are involved in the same line of business as our Company. We may hence have to compete with our Group Entities for business, which may impact our business, financial condition and results of operations. The interests of our Promoters may also conflict in material aspects with our interests or the interests of our shareholders. For further details, see "Group Companies/Entities" on page 107.

External Risk Factors

34. *Political, economic and social changes in India could adversely affect our business.*

Our business, and the market price and liquidity of our Company's shares, may be affected by changes in Government policies, including taxation, social, political, economic or other developments in or affecting India could also adversely affect our business. Since 1991, successive governments have pursued policies of economic liberalization and financial sector reforms including significantly relaxing restrictions on the private sector. In addition, any political instability in India may adversely affect the Indian economy and the Indian securities markets in general, which could also affect the trading price of our Equity Shares.

35. *Changing laws, rules and regulations including adverse application of tax laws and regulations-such as application of goods and service tax could adversely affect our business, results of operations and cash flows.*

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. Please refer to the section "Key Industry Regulations and Policies" beginning on page 80 for details of the laws currently applicable to us.

For instance, the Government of India has proposed a comprehensive national goods and service tax("GST") regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Although the Government announced that it is committed to introduce GST with effect from April 1, 2016, given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to this or any other aspect of the tax regime following implementation of the GST.The

implementation of this rationalized tax structure may be affected by any disagreement between certain state governments, which may create uncertainty. Recently, the Central Government pursuant to a notification dated May 19, 2015 notified an increase in service tax rate from 12.36% to 14% (with effect from June 1, 2015), as was proposed in Union Budget 2015. The levy of Education Cess and Secondary and Higher Education Cess on taxable services ceased to have effect from June 1, 2015. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Additionally, the central or state government may in the future increase the corporate income tax it imposes.

36. *Our business may be adversely affected by competition laws in India and any adverse application or interpretation of the Competition Act could adversely affect our business.*

The Competition Act, 2002, as amended (the “Competition Act”), regulates practices having an appreciable adverse effect on competition in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an appreciable adverse effect on competition is considered void and results in the imposition of substantial monetary penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area, type of goods or services or number of clients in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition. The Competition Act also prohibits abuse of a dominant position by any enterprise.

The applicability or interpretation of the Competition Act to any merger, amalgamation or acquisition proposed or undertaken by us, or any enforcement proceedings initiated by CCI for alleged violation of provisions of the Competition Act may adversely affect our business, financial condition or results of operation.

37. *Our business is subject to a significant number of tax regimes and changes in legislation governing the rules implementing them or the regulator enforcing them in any one of those jurisdictions could negatively and adversely affect our results of operations.*

The revenues recorded and income earned is taxed on differing bases, including net income actually earned, net income deemed earned and revenue-based tax withholding. The final determination of the tax liabilities involves the interpretation of local tax laws as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. Changes in the operating environment, including changes in tax laws, could impact the determination of the tax liabilities of our Company for any year.

38. *Natural calamities and force majeure events may have an adverse impact on our business.*

Natural disasters may cause significant interruption to our operations, and damage to the environment that could have a material adverse impact on us. The extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of deficient or abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy, which could adversely affect our business and results of operations.

39. *Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.*

Our Company may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for the adoption of, and convergence with, the IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (“IFRS Convergence Note”). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 32 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined and will be notified by the Ministry of Corporate Affairs after various tax related issues are resolved. We have not yet determined with certainty what impact the adoption of IFRS will have on our financial reporting. Our financial condition, results of operations, cash flows or changes in shareholders' equity may appear materially different under IFRS than under Indian GAAP or our adoption of IFRS may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period.

40. *Restrictions on foreign investment limit our ability to raise debt or capital outside India.*

Indian laws constrain our ability to raise capital outside India through the issuance of equity or convertible debt securities and restrict the ability of non-Indian companies to invest in us. Foreign investment in, or an acquisition of, an Indian company requires approval from the relevant government authorities in India, including the Reserve Board of India and the Foreign Investment Promotion Board.

41. *Any downgrading of India's debt rating by a domestic or international rating agency could negatively impact our business.*

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial results and business prospects, ability to obtain financing for capital expenditures and the price of our Equity Shares.

42. *Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

Terrorist attacks and other acts of violence or war may adversely affect the Indian markets on which our Equity Shares will trade. These acts may result in a loss of business confidence, make travel and other services more difficult and have other consequences that could have an adverse effect on our business. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of our Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse impact on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our Equity Shares.

43. *Third party statistical and financial data in this Draft Prospectus may be incomplete or unreliable.*

We have not independently verified any of the data from industry publications and other sources referenced in this Draft Prospectus and therefore cannot assure you that they are complete or reliable. Discussions of matters relating to India, its economies or the industries in which we operate in this Draft Prospectus are subject to the caveat that the statistical and other data upon which such discussions are based may be incomplete or unreliable.

44. *The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to greater compliance requirements and increase our compliance costs.*

A majority of the provisions and rules under the Companies Act, 2013 have been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 provides for, among other things, changes to the regulatory framework governing the issue of capital by companies, corporate governance, audit procedures, corporate social responsibility, specific compliance requirements such as obtaining prior approval from audit committee, board of directors and shareholders for certain related party transactions and the requirements for independent directors, director's liability, class action suits, and the inclusion of women directors on the boards of companies. The Companies Act, 2013 is expected to be complemented by a set of rules that shall set out the procedure for compliance with the substantive provisions of the Companies Act, 2013. In the absence of such rules, it is difficult to predict with any degree of certainty the impact, adverse or otherwise, of the Companies Act, 2013 on the issue, and on the business, prospects and results of operations of the Company.

Risks relating to the Equity Shares

45. *Any future issue of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.*

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

- 46. *Our ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.***

The amount of our future dividend payments, if any, will depend upon our Company's future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

- 47. *The price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all.***

Prior to the offer, there has been no public market for our Equity Shares, and an active trading market on the SME Platform of BSE. The Issue Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Issue. The market price of the Equity Shares after the Issue may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the Education Sector, developments relating to India and volatility in the Exchange and securities markets elsewhere in the world. However, the LM will arrange for compulsory market making for a period of 3 years from the date of listing as per the regulations applicable to the SME Platforms under SEBI (ICDR) Regulations, 2009.

- 48. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE in a timely manner, or at all.***

In terms of Chapter XB of the SEBI (ICDR) Regulations, 2009, as amended from time to time, we are not required to obtain any in-principle approval for listing of shares issued. We have only applied to BSE Limited to use its name as the Stock Exchange in this offer document for listing our shares on the SME Platform of BSE. In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

- 49. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.***

Prior to this Issue, there has been no public market for our Equity Shares. Guinness Securities Limited is acting as Designated Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers please refer to the section titled "General Information – Details of the Market Making Arrangement for this Issue" on page 37 of this Draft Prospectus.

- 50. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.***

Following the Issue, we will be subject to a daily "circuit breaker" imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This

circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

Education

Education is the process of facilitating learning. Knowledge, skills, values, beliefs, and habits of a group of people are transferred to other people, through storytelling, discussion, teaching, training, or research. Any experience that has a formative effect on the way one thinks, feels, or acts may be considered educational. (Source: Wikipedia)

Indian education system can broadly be classified in formal and informal education system. Basic difference between these two systems is that of regulation. Formal system is regulated by various bodies constituted by central and state government, whereas the informal system is not governed by any direct regulations. Another difference between two systems is the course they teach. On one hand we have various government bodies like NCERT deciding the course for the formal system and on the other hand informal system prescribes its own course which is some time in conjunction or similar to formal system but does not strictly adhere to the guidelines.

Government Initiatives:-

The Government of India is all set to roll out a new educational policy by 2015, according to Ms. Smriti Irani, Union Minister of Human Resource Development (HRD), Government of India.

Some of the other major initiatives taken by the Government of India are:

- The Government has drawn up an ambitious roadmap to enhance skill levels of millions of people. The plans involve integrating skill enhancement and entrepreneurship in the syllabi at the school level, setting up of 2,500 multi- skilling institutions in the public-private partnership (PPP) mode, and set up institutes of entrepreneurship development in various centres including upcoming smart cities among others. India will have to skill 120 million people in non-farm sectors, with the highest requirement of skilled labour to come from the construction sector (31 million) followed by retail (17 million) and logistics (12 million), according to estimates between 2013 and 2022. A National policy on skill development and entrepreneurship will be finalised by March 31, 2015.
- The Government of India plans to open a first-of-its-kind national vocational university that will subsume all Industrial Training Institutes (ITIs), a move to improve standards and bring uniformity among the schools that supply workers to the manufacturing sector.
- A memorandum of understanding (MoU) has been signed between Foundation for Innovation and Technology Transfer (FITT) and Security Printing and Minting Corporation of India Ltd (SPMCIL). The MoU has been envisioned to foster collaboration on research, training and professional development and exchange of technical expertise in areas of mutual interest such as material sciences and testing capabilities.

In addition, Government of India restructured its teacher training system, doubling its duration to two years and mandating a six-month internship as part of it, in an effort to improve the quality of teachers and, by extensive, education.

Road Ahead:-

Various government initiatives are being adopted to boost the growth of distance education market, besides focusing on new education techniques, such as E-learning and M-learning. Hiring quality talent will be a focal point, and the use of non-traditional methods for recruitment like mobile technology will be one trend to look out for in 2015. The Government of India has taken several steps including opening of IIT's and IIM's in new locations as well as allocating educational grants for research scholars in most government institutions. Furthermore, with online modes of education being used by several educational organisations, the higher education sector in India is set for some major changes and developments in the years to come.

The education and training sector in India has witnessed some major investments and developments in the recent past. Some of them are:

- EMC Corporation plans to establish 100 centres of academic excellence in India in 2015. These centres will be set up in leading IT institutes across the country to give students an opportunity to learn and practise key skills in the areas of cloud, data science, analytics, IT infrastructure and other leading technologies, as per a company statement.
- Pearson Education is on a global transformation journey graduating from its largely publishing business to expanding into school, higher education and vocational training. On the vocational education segment, Pearson trains about 20,000-30,000 learners per year in livelihood training and provides them with placement.
- To foster entrepreneurship, IIT-Bombay (IIT-B) has five interdisciplinary centres of development, a Society for Innovation and Entrepreneurship (SINE) that has incubated some 55 companies since its inception. IIT-B has also launched the Desai Sethi Centre for Entrepreneurship (DSCE) in July 2014 to foster an entrepreneurial spirit and technology innovation.
- The All India Council of Technical Education (AICTE) is working to prepare a management entrance test modelled on the US Scholastic Assessment Test (SAT). AICTE wants to attract students from some half-a-dozen Asian countries seeking admission to management programmes. The regulator is to roll out the entrance exam in

Asian countries, followed by African countries and then take it global. A total of 93,693 foreign students were studying in India in 2013, according to data from the Ministry of Human Resource Development (HRD).

- The Times of India Group-promoted Bennett University has tied up with Babson Global, a wholly owned subsidiary of Babson College, Massachusetts, US, to offer programs for Indian students and entrepreneurs.

Government Initiatives:-

The Government of India is all set to roll out a new educational policy by 2015, according to Ms. Smriti Irani, Union Minister of Human Resource Development (HRD), Government of India.

Some of the other major initiatives taken by the Government of India are:

- The Government has drawn up an ambitious roadmap to enhance skill levels of millions of people. The plans involve integrating skill enhancement and entrepreneurship in the syllabi at the school level, setting up of 2,500 multi- skilling institutions in the public-private partnership (PPP) mode, and set up institutes of entrepreneurship development in various centres including upcoming smart cities among others. India will have to skill 120 million people in non-farm sectors, with the highest requirement of skilled labour to come from the construction sector (31 million) followed by retail (17 million) and logistics (12 million), according to estimates between 2013 and 2022. A National policy on skill development and entrepreneurship will be finalised by March 31, 2015.
- The Government of India plans to open a first-of-its-kind national vocational university that will subsume all Industrial Training Institutes (ITIs), a move to improve standards and bring uniformity among the schools that supply workers to the manufacturing sector.
- A memorandum of understanding (MoU) has been signed between Foundation for Innovation and Technology Transfer (FITT) and Security Printing and Minting Corporation of India Ltd (SPMCIL). The MoU has been envisioned to foster collaboration on research, training and professional development and exchange of technical expertise in areas of mutual interest such as material sciences and testing capabilities.

In addition, Government of India restructured its teacher training system, doubling its duration to two years and mandating a six-month internship as part of it, in an effort to improve the quality of teachers and, by extensive, education.

Road Ahead:-

Various government initiatives are being adopted to boost the growth of distance education market, besides focusing on new education techniques, such as E-learning and M-learning. Hiring quality talent will be a focal point, and the use of non-traditional methods for recruitment like mobile technology will be one trend to look out for in 2015. The Government of India has taken several steps including opening of IIT's and IIM's in new locations as well as allocating educational grants for research scholars in most government institutions. Furthermore, with online modes of education being used by several educational organisations, the higher education sector in India is set for some major changes and developments in the years to come.

The Companies Act, 1956

The Act deals with laws relating to companies and certain other associations. It was enacted by the parliament in 1956. The Companies Act, 1956 primarily regulates the formation, financing, functioning and winding up of companies. Regulation of the financial and management aspects constitutes the main focus of the Act. In the functioning of the corporate sector, although freedom of companies is important, protection of the investors and shareholders, on whose funds they flourish, is equally important. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

The Companies Act, 2013 (to the extent notified)

The Companies Act, 2013, has been introduced to replace the existing Companies Act, 1956 in a phased manner. The Ministry of Corporate Affairs vide its notification dated September 12, 2013 has notified 98 sections of the Companies Act, 2013 and the same are applicable from the date of the aforesaid notification. Further 183 sections have been notified on March 26, 2014 and have become applicable from April 1, 2014. The Ministry of Corporate Affairs has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013.

The Competition Act, 2002

The Competition Act, 2002 (the “Competition Act”) prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates “combinations” in India. The Competition Act also established the Competition Commission of India (the “CCI”) as the authority mandated to implement the Competition Act. The provisions of the Competition Act relating to combinations were notified on March 04, 2011 and came into effect on June 01, 2011. Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. A combination is defined under section 5 of the Competition Act as an acquisition, merger or amalgamation of enterprise(s) that meets certain asset or turnover thresholds. There are also different thresholds for those categorized as ‘Individuals’ and ‘Group’.

The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India. Effective June 01, 2011, all combinations have to be notified to the CCI within 30 days of the execution of any agreement or other document for any acquisition of assets, shares, voting rights or control of an enterprise under section 5(a) and (b) of the Competition Act (including any binding document conveying an agreement or decision to acquire control, shares, voting rights or assets of an enterprise); or the board of directors of a company (or an equivalent authority in case of other entities) approving a proposal for a merger or amalgamation under section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

for impounding of instruments that are not sufficiently stamped or not stamped at all.

Intellectual Property Rights Legislations

The laws relating to intellectual property will also apply to the Company.

The Trade Marks Act, 1999

The Trade Marks Act, 1999 governs the statutory protection of trademarks in India. In India, trademarks enjoy protection under both statutory and common law. Indian trademarks law permits the registration of trademarks for goods and services. Certification trademarks and collective marks are also registrable under the Act. An application for trademark registration may be made by any person claiming to be the proprietor of a trademark and can be made on the basis of either current use or intention to use a trademark in the future. The registration of certain types of trademarks is absolutely prohibited, including trademarks that are not distinctive and which indicate the kind or quality of the goods. Applications for a trademark registration may be made for in one or more international classes. Once granted, trademark registration is valid for 10 years unless cancelled. If not renewed after 10 years, the mark lapses and the registration for such mark has to be obtained afresh. While both registered and unregistered trademarks are protected under Indian law, the registration of trademarks offers significant advantages to the registered owner, particularly with respect to proving infringement. Registered trademarks may be protected by means of an action for infringement, whereas unregistered trademarks may only be protected by means of the common law remedy of passing off. In case of the latter, the plaintiff must, prior to proving passing off, first prove that he is the owner of the trademark concerned. In contrast, the owner of a registered trademark is prima facie regarded as the owner of the mark by virtue of the registration obtained.

The Patents Act, 1970

The Patents Act, 1970 is the primary legislation governing patent protection in India. In addition to broadly requiring that an invention satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. The term of a patent granted under the Patents Act is for a period of twenty years from the date of filing of application for the patent. The Act deems that computer programs per se are not 'inventions' and are therefore, not entitled to patent protection. This position was diluted by The Patents Amendment Ordinance, 2004, which included as patentable subject matter:

1. Technical applications of computer programs to industry; and
2. Combinations of computer programs with the hardware.

However, the Patents Amendment Act, 2005, does not include this specific amendment and consequently, the Patents Act, as it currently stands, disentitles computer programs per se from patent, may disentitle the said invention to patent protection on grounds of lack of novelty. Under the Act, an invention will be regarded as having ceased to be novel (and hence not patentable), inter alia, by the existence of:

1. Any earlier patent on such invention in any country;
2. Prior publication of information relating to such invention;
3. An earlier product showing the same invention; or
4. A prior disclosure or use of the invention that is sought to be patented.

Following its amendment by the Patents Amendment Act, 2005, the Patents Act permits opposition to grant of a patent to be made, both pre-grant and post-grant. The grounds for such patent opposition proceedings, inter alia, include lack of novelty, inventiveness and industrial applicability, non-disclosure or incorrect mention of source and geographical origin of biological material used in the invention and anticipation of invention by knowledge (oral or otherwise) available within any local or indigenous community in India or elsewhere. The Act also prohibits any person resident in India from applying for patent for an invention outside India without making an application for the invention in India. Following a patent application in India, a resident must wait for six weeks prior to making a foreign application or may obtain the written permission of the Controller of Patents to make foreign applications prior to this six week period. The Controller of Patents is required to obtain the prior consent of the Central Government before granting any such permission in respect of inventions relevant for defence purpose or atomic energy. This prohibition on foreign applications does not apply, however, to an invention for which a patent application has first been filed in a country outside India by a person resident outside India.

Copyright Act, 1957

The Copyright Act, 1957 protects original literary, dramatic, musical and artistic works, cinematographic films and sound recordings from unauthorized use of such works. Unlike the case with patents, copyright protects the expressions and not the ideas. There is no copyright in an idea. The object of copyright law is to encourage authors, artists and composers to create original works by rewarding them with exclusive right for a fixed period to reproduce the works for commercial exploitation. Copyrights subsist in following class of works:

- a) Original literary, musical, dramatic and artistic works
- b) Cinematograph films
- c) Sound recordings

Under the copyright law, the creator of the original expression in a work is its author who is vested with a set of exclusive rights with respect to the use and exploitation of the work. The author is also the owner of the copyright, unless there is a written agreement by which the author assigns the copyright to another person or entity, such as a publisher, where work is done under a 'work for hire' agreement, the copyright vests with the hirer, i.e., the person providing the work. The owner of copyright in a work can assign or license his copyright to any person, such as publisher, under a written agreement. Copyright subsists in a work since the time it comes into being. Therefore registration of copyright neither creates any rights nor precludes enforcement of the existing ones. However, owing to its evidentiary value, a registered copyright is easier to establish in the court of law. The term copyright varies across different types of works. In the case of broadcasts, the Act grants "broadcast reproduction rights" to broadcasting organizations which subsist for 25 years.

The Indian Contract Act, 1872

The Indian Contract Act, 1872 is the legislation which lays down the general principles relating to formation, performance and enforceability of contracts. The rights and duties of parties and the specific terms of agreement are decided by the contracting parties themselves, under the general principles set forth in the Act. The Act also provides for circumstances under which contracts will be considered as 'void' or 'voidable'. The Act contains provisions governing certain special contracts, including indemnity, guarantee, bailment, pledge and agency.

Foreign Exchange Management Act, 1999

Foreign investment in India is governed primarily by the provisions of FEMA which relates to regulation primarily by RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Government of India ("FDI Policy") and the FDI Policy issued by the DIPP (Circular 2 of 2010, with effect from October 1, 2010). The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, as amended ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue of security to a person resident outside India. As specified by the FEMA Regulations, no prior consent and approval is required from the FIPB or the RBI, for FDI under the "automatic route" within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI.

The schooling segment in India is anticipated to be around US\$ 144 billion by 2020 from an estimated US\$ 95.8 billion in 2015. In 2014, with 29.63 million students and approximately 48,116 colleges and institutions, India's higher education segment is the largest in the world. RBI on March 13, 2014 amended the FEMA Regulations and laid down conditions and requirements with respect to investment by FPIs in Indian companies.

In terms of the SEBI FPI Regulations, an FII who holds a valid certificate of registration from SEBI shall be deemed to be a registered FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations. Allotment will be made in consultation with the BSE (The Designated Stock Exchange). In the event of oversubscription,

the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

(a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).

(b) The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

(c) For applications where the proportionate allotment works out to less than 1600 equity shares the allotment will be made as follows:

- i. Each successful Applicant shall be allotted 1600 equity shares; and
- ii. The successful Applicants out of the total applicants for that category shall be determined by the withdrawal of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

(d) If the proportionate allotment to an Applicant works out to a number that is not a multiple of 1600 equity shares, the Applicant would be allotted Shares by rounding off to the nearest multiple of 1600 equity shares subject to a minimum allotment of 1600 equity shares.

(e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Applicants in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 1600 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this draft Prospectus.

Restriction on Foreign Ownership of Indian Securities

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the FIPB and the RBI.

The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), issued the Consolidated FDI Policy Circular of 2015 (“**FDI Circular 2015**”), which, with effect from May 12, 2015, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on May 12, 2015. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2015 will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be qualified institutional buyers (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A of the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus.
